Ananya Nair - Data Scientist & AI Engineer

Email: ananya.nair@example.com | **Phone:** +91 98450 12345 | **Location:** Bengaluru, India | **GitHub:** github.com/ananyanair-ai

PROFESSIONAL SUMMARY

Data Scientist and AI Engineer with 3+ years experience developing Machine Learning models, NLP pipelines, and deep learning architectures. Skilled in Python, Scikit-learn, PyTorch, LangChain, and Streamlit dashboard prototyping.

CORE COMPETENCIES & SKILLS

• **Languages & Tools:** Python, SQL, R, Git, Linux, Docker

• **AI & Machine Learning:** Scikit-learn, TensorFlow, PyTorch, Deep Learning, Machine Learning, NLP, Generative AI, LLM, LangChain

• **Data Analytics:** Pandas, NumPy, Data Analysis, Data Science, Tableau, Power BI

• **Cloud & Deployment:** AWS, Google Cloud (GCP), Streamlit, FastAPI, Docker

• **Soft Skills:** Critical Thinking, Problem Solving, Agile Collaboration, Communication

WORK EXPERIENCE

Machine Learning Engineer | AI Horizons Lab (2022 - Present)

• Designed and trained NLP classification and summarization pipelines using PyTorch and Hugging Face transformers.

• Built interactive data exploration prototypes using Streamlit and Pandas for executive stakeholders.

• Developed predictive churn models using Scikit-learn, boosting customer retention by 18%.

• Deployed scalable model inference APIs using FastAPI and Docker containers on AWS.

Data Analyst | Insight Data Systems (2021 - 2022)

• Conducted comprehensive statistical analysis and built Power BI dashboards analyzing 500k+ customer transactions.

• Authored automated SQL ETL queries to extract and transform database pipelines in PostgreSQL.

EDUCATION

B.Tech in Artificial Intelligence & Data Science | KTU (2017 - 2021)
